

# OSAP One-Day Dental Infection Control Boot Camp™

## Support for the Entire Dental Team

The Iowa Dental Board, Iowa Department of Public Health, and the Organization for Safety, Asepsis, and Prevention (OSAP) are partnering to bring the OSAP One-Day Dental Infection Control Boot Camp to Iowa. In this fast-paced, interactive 6-hour CE course, attendees will participate in the elements of a successful infection prevention program to better understand how to ensure compliance and dental safety upon return to their practices. Participants will also learn about specific resources that are available to help develop and guide the dental team member assigned this important responsibility.

**Bring the entire team and fulfill OSHA's annual requirements at the same time.**

After attending this course, dental team members will be able to:

1. Describe the key infection control roles and responsibilities.
2. Describe the major sections of OSHA's Bloodborne Pathogens and Hazard Communication Standards.
3. Identify the basic expectations for safe care as indicated by CDC.
4. Identify tools and resources to facilitate program planning, implementation and evaluation.

### **BOOT CAMP DATES AND LOCATIONS\***

#### **Cohort 1: Friday, January 18, 2019**

State Historical Museum of Iowa  
600 E Locust St  
Des Moines, IA 50319

#### **Cohort 2: Friday, February 15, 2019**

Coralville Marriott Hotel & Conference Center  
300 E 9th St  
Coralville, IA, US, 52241

\* Two cohorts will be held (the same materials will be covered at both sessions), so pick the offering that works best for your schedule.

## Instructors

### **Karen K. Daw, MBA, CECM**

Karen K. Daw, MBA received her Bachelor's degree from The Ohio State University and after graduation stayed on at OSU as the Assistant Director for the Sterilization Monitoring Service and then as the Clinic Health and Safety Director. She continued her education by earning an MBA with a focus on Management and Healthcare Administration, applying principles of lean processes to safety in the dental field. Ms. Daw is an Authorized OSHA Trainer with 20 years of experience as a writer, speaker and consultant providing dental continuing education courses in a light and engaging format.

### **Marie T. Fluent, DDS**

Dr. Fluent is a graduate of the University of Michigan, School of Dentistry. Her dental career expands over 30 years and includes the roles of dental assistant, office manager, dentist (associate and practice owner), infection control coordinator, speaker, author, educator, clinical instructor and infection control consultant. Dr. Fluent was recently an Educational Consultant for the Organization for Safety, Asepsis and Prevention where she led the development and implementation of the programs for OSAP's Boot Camp and Annual Conferences. Dr. Fluent is passionate about infection control and safety and has educated thousands of dental professionals and students through writing, webinars, and lectures. She has written numerous peer reviewed articles on infection control in the dental setting, OSHA compliance and responsible antibiotic prescribing.
